Actual results could differ from these estimates and such differences are recognized in the period in which such results are known / materialize. Any revision to accounting estimates is recognized prospectively in current and future periods.

2.3. Fixed Assets

Tangible fixed assets are carried at cost less accumulated depreciation and impairment, if any. Cost comprises the purchase price or construction cost including any attributable costs of bringing the asset to its working condition for its intended use.

2.4. Depreciation:

Depreciation has been provided under the straight-line method on all Fixed Assets at the rates specified as per Schedule II to the Companies Act, 2013. ii) Post-employment benefits

(a) Defined contribution plans
