

25th ANNUAL REPORT 2014-15

25 years of celebrating *Indian Taste*

Chairman speaks

Dear Shareholders,

It is with great pride and pleasure that I announce the Silver Jubilee of our company, this year. For us it's been a journey from a humble beginning to a diverse business of various ethnic food products. Our range includes many ready to eat foods, Indian frozen snacks & breads, frozen Mexican and Mediterranean treats, meal accompaniments and spices. What made our journey meaningful was sensitizing ourselves to the tastes of millions of consumers in over 45 countries across the world. However success has not made us complacent. We continue to enrich the world with our culinary delights under our extensive brand portfolio of Ashoka, PJ's Organics, Camel, Aeroplane, Nate's, ADF SOUL and Truly Indian.

On the domestic front this year we took up the task of refreshing the flavor of our flagship brand, ADF SOUL. We spiced it up with a fresh new look and feel! New products like cooking pastes in user-friendly laminated packs were introduced for the first time in India. The Indian market had never seen such packing in this food category before. Little wonder that these were an instant hit.

ADF SOUL products now delight the shelves of top retail chains and grocery stores in many cities across India. We have also started tasting online success by tying up with some of the popular e-stores.

Our significant presence in the global food market has been a special ingredient for our success. This year, our extremely innovative product 'Nate's Mediterranean Bites' received an overwhelming response in the US market. While our US division continues to infuse the flavor of our core brands in major supermarket chains and natural grocery stores across the USA, we keep ensuring that aggressive advertising and marketing strategies boost our brand awareness endeavours in every way.

We also revamped the packaging of our leading global brands like Ashoka, Aeroplane and Camel to assure that they stand tall and proud while they rub shoulders with the best in International shelves.

The past year had its challenges with pressures on margins due to high input costs, yet we managed to improve the standalone revenues for the fiscal 2015 at ₹ 149.45 Crore as against ₹ 141.81 Crore in the previous year. The Net profit (after tax and extra ordinary items) for the year under review stood at ₹ 14.60 crore as against ₹ 12.45 crore in the previous year recording an increase of 17%.

Consolidated turnover for the Fiscal 2015 stood at ₹ 203.80 Crore as against ₹ 207.64 Crore in the previous year. Despite the revenue remaining almost at the same level as that of the previous year, the net profit (after tax and extra ordinary items) for the financial year was ₹ 8.84 Crore as against ₹ 5.65 Crores, recording an increase of 56%! Thanks to our experts brewing up special recipes in terms of right plans and strategies to tackle challenges and enrich our performance.

As we enter the Fiscal 2016, we continue to invest in our two relatively new businesses which is in India under the ADF SOUL brand and our U.S. business under the PJ's Organics and Nate's Brands.

Keeping in sync with our tradition of the past 11 years, this year too, the Board has recommended a 15% dividend to our shareholders.

I take this opportunity to thank my colleagues on Board and all the employees of the company for their all-time support and sincere efforts. Finally, I'd like to thank all the shareholders for backing ADF all these years. Without your confidence and trust we would never have been able to savour our success in the way we do now.

With warm regards,

Ashok H. Thakkar
(Chairman)

I. Overview of the Food Processing Sector :

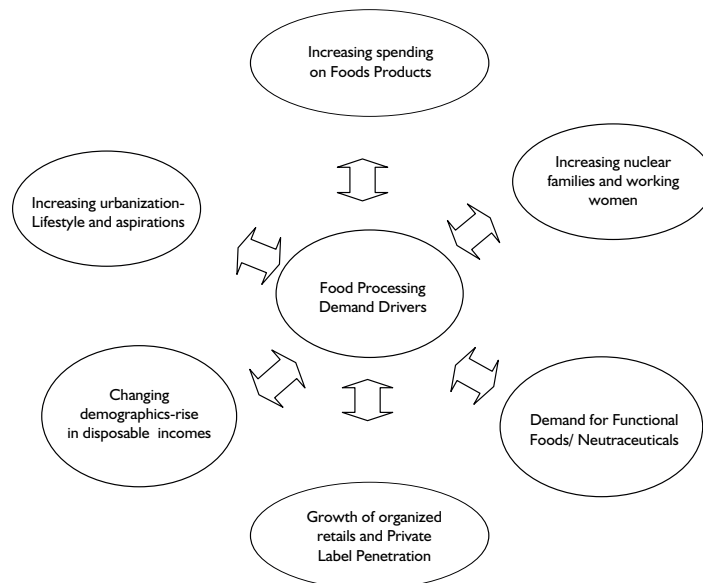

India is a richly endowed agricultural nation. It has nearly a tenth of world’s arable land and a fifth of world’s irrigated land. India has all major climates of the world, enjoys long sunshine hours, fairly good rainfall which are ideally suited for round the year cultivation. Given the resource endowment, India has all the potentials to become one of the largest food processing countries in the world. Currently the food processing industry is one of the largest industries in India and is ranked fifth in terms of production, consumption, export and expected growth. Abundant supply of raw materials, increase in demand and incentives offered by the government has impacted food processing industry positively. - **Competition**

Competition, generally perceived as the 'game changing risk' is a critical area in Food industry sector. There is an apparent rise in the number of international food franchises getting their foothold in India. Even with this, the management is positive to outperform with its performance.

- **Exchange Rate Fluctuation**

ADF Foods Ltd. believes in conducting its affairs in a fair and transparent manner by adopting the highest standards of professionalism, honesty, integrity and ethical behaviour. Any actual or potential violation of these Principles would be a matter of serious concern for the organisation. Employees have a role and responsibility in pointing out such violations. This policy is formulated to provide a secure environment and to encourage employees of the organisation to report unethical, unlawful or improper practices, acts or activities in the organization and to prohibit managerial personnel from taking any adverse personnel action against those employees who report such practices in good faith. This policy applies to all permanent employees of the organisation.

Policy

Every employee is expected to promptly report to the management any actual or possible violation of the Principles or any other unlawful or unethical or improper practice or act, or activity. The unlawful or unethical or improper practice or act or activity (hereinafter referred to as an “alleged wrongful conduct”) may include, but is not limited to, any of the following:

- A violation of any law
- Misuse or misappropriation of the Organization’s assets
- Gross waste of or misuse or misappropriation of the Organization’s funds
- Incorrect financial reporting or misrepresentation of facts which are not in line with applicable company policy
- A substantial and specific danger to health and safety
- Serious improper conduct (including any kind of mental or sexual harassment) No manager, director, department head, or any other employee with authority to make or materially influence significant personnel decisions shall take or recommend an adverse personnel action against an employee in knowing retaliation for a disclosure of information, made in good faith, about an alleged wrongful conduct.

Definitions

1. “This Policy” or “Policies”

“This Policy” or “Policies” refers to the “Whistle-Blower Policy.”

2. Whistle-Blower (WB)

WB means an Employee making a Disclosure under this Policy.

3. Adverse Personnel Action

An employment-related act or decision (relating to, but not limited to, compensation, promotion, job location, job profile, leave or other privileges) or a failure to take appropriate action by a manager, which may affect the employee negatively.

4. Designated Committee

WB Committee shall comprise of:

- 1) The Managing Director- Mr. Bimal R. Thakkar;
- 2) Head of Accounts- Mr. Dilip Golwala, and
- 3) Head of HR- Ms. Shalaka Ovalekar

The mechanism shall be reviewed by the Audit Committee of the Company (in accordance with the Listing Agreement)

5. Good Faith

An employee shall be deemed to be communicating in good faith if there is a reasonable basis for communication of the alleged wrongful conduct. Good faith shall be deemed lacking when the employee does not have personal knowledge

of or a factual basis for the communication or where the employee knew or reasonably should have known that the communication about the alleged wrongful conduct is malicious, false or frivolous.

Roles, Rights and Responsibilities of Whistle-Blowers

- Whistle-Blowers provide initial information based on a reasonable belief that an alleged wrongful conduct has occurred. The whistleblower is not expected to prove the truth of an allegation, but he needs to demonstrate to the Committee that there are sufficient grounds for concern. Certain safeguards have been provided which will prevent harassment or victimization of the Whistle Blower and could constitute sufficient grounds for dismissal of the concerned employee. However, the intentional filing of a false report, whether orally or in writing is itself considered an improper activity, which the Designated Committee has the right to act upon.
- Whistle-Blowers shall refrain from obtaining evidence for which they do not have a right of access. Such improper access may itself be considered an improper activity.
- Whistle-Blowers have a responsibility to be candid with the members of the Designated Committee or others to whom they make a report of alleged improper activities and shall set forth all known information regarding any reported allegations.
- Anonymous Whistle-Blowers must provide sufficient corroborating evidence to justify the commencement of an investigation. An investigation of unspecified wrongdoing or broad allegations would not be undertaken without verifiable evidence. Because investigators are unable to interview anonymous Whistle-Blowers, it may be more difficult to evaluate the credibility of the allegations and, therefore, less likely to cause an investigation to be initiated.
- Whistle-Blowers are “reporting parties,” not investigators. They are not to act on their own in conducting any investigative activities, nor do they have a right to participate in any investigative activities other than as requested by the investigating authority.
- The identity of the Whistle-Blower will not be disclosed except where required under the law or for the purpose of the investigation. Should, however, the Whistle-Blower self-discloses his or her identity, there will no longer be an obligation not to disclose the Whistle-Blower’s identity.
- This policy may not be used as a defense by an employee against whom an adverse personnel action has been taken for legitimate reasons or cause under Company rules and policies. It shall not be a violation of this policy to take adverse personnel action against an employee, whose conduct or performance warrants that action, separate and apart from that employee making a disclosure.

Disqualification

- While it will be ensured that genuine Whistle-Blowers are accorded complete protection from any kind of unfair treatment as herein set out, any abuse of this protection will warrant disciplinary action.
- Protection under this Policy would not mean protection from disciplinary action arising out of false or bogus allegations made by a whistle-blower knowing it to be false or bogus or with a mala fide intention.
- Whistle-Blowers, who make any Disclosures, which have been subsequently found to be mala fide or malicious or whistle-blowers who makes three or more Disclosures, which have been subsequently found to be frivolous, baseless or reported otherwise than in good faith, will be disqualified from reporting further Disclosures under this Policy. This itself will be considered as an improper activity which the Designated Committee members have the right to act upon.

Procedures

A. For Making a Disclosure

- Any employee who observes or has knowledge of an alleged wrongful conduct shall make a disclosure to any of the members of the Company’s WB Committee as soon as possible but not later than 60 consecutive calendar days after becoming aware of the same. The disclosure may be made in writing (by e-mail or on paper) or orally (a personal meeting or over the telephone). Complainants must put their names to allegations as follow-up questions and investigation may not be possible unless the source of the information is identified. **Concerns expressed anonymously WILL NOT BE usually investigated BUT subject to the seriousness of the issue raised, the WB Committee can initiate an investigation independently.**

- The Committee to which the disclosure has been made shall appropriately and expeditiously investigate all whistle-blower reports received. Every effort will be made to protect the complainant's identity, subject to legal constraints. Malicious allegations by employees may result in disciplinary action.
- In this regard, the Committee, if the circumstances so suggest, may appoint a senior officer or a committee of managerial personnel to investigate into the matter.
- The Committee shall have the right to outline a detailed procedure for an investigation.

B. For Filing a Complaint by Whistle-Blower

- No later than 30 days after a current or former employee is notified or becomes aware of an adverse personnel action, he or she may protest the action by filing a written Whistle-Blower complaint with any member of the Delegation WB Committee. The Committee on receipt of a Whistleblower complaint shall appoint a senior officer or a committee of managerial personnel to review the complaint.

Our responsibility is to express an opinion on these standalone financial statements based on our audit.

We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on whether the Company has in place an adequate internal financial controls system over financial reporting and the operating effectiveness of such controls. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the standalone financial statements.

- (b) it is held primarily for the purpose of being traded;
- (c) it is due to be settled within twelve months after the balance sheet date; or
- (d) the Company does not have an unconditional right to defer settlement of the liability for at least twelve months after the balance sheet date.

All other liabilities are classified as non-current.

All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criteria set out above which are in accordance with the Schedule III to the Act.

Based on the nature of services and the time between the acquisition of assets for processing and their realisation in cash and cash equivalents, the Company has ascertained its operating cycle as 12 months for the purpose of current and non-current classification of assets and liabilities.

b. Use of estimates

The preparation of financial statements in conformity with Generally Accepted Accounting Principles (GAAP) in India requires the management to make estimates and assumptions that affect the reported balances of assets and liabilities, revenues and expenses and disclosures relating to contingent liabilities as at the date of financial statements. Changes in estimates are recognized in the year these arise.

c. Fixed Assets

i) Tangible assets

Tangible fixed assets are carried at cost less accumulated depreciation and impairment if any. Cost comprises the purchase price or construction cost including any attributable cost of bringing the asset to its working condition for its intended use.

ii) Intangible assets

Intangible fixed assets are carried at cost less accumulated amortization and impairment if any. Cost comprises the purchase consideration paid for brands and goodwill and any attributable cost of bringing internally generated asset to its working condition for its intended use.

iii) Capital work in progress

Capital work in progress includes the acquisition/commissioning cost of assets under expansion/acquisition and pending commissioning. Expenditure of revenue nature related to such acquisition/expansion is also treated as capital work in progress and capitalized along with the asset on completion of the expansion project or otherwise on commencement of commercial use of the asset.

d. Depreciation

i) Tangible assets

Depreciation has been provided under the straight-line method on all Fixed Assets at the rates specified as per Schedule II to the Companies Act, 2013 except in case of carboys and pallets where a lower rate of depreciation i.e. five years under straight line method is applied based on technical advice obtained by the company. Depreciation on additions to assets or where any asset has been sold or discarded, is calculated on a pro-rata basis from the date of such addition or up to the date of such sale or discard as the case may be.

ii) Intangible assets

Intangible assets are amortized over a period of 5 years in the case of Goodwill and over a period of 10 years in the case of Brands purchased / acquired.

iii) Leasehold land

Cost of leasehold land is amortized over the balance period of the lease.

iv) Impairment of Assets

The Company assesses at each balance sheet date whether there is any indication that an asset may be impaired. If any such indication exists, the Company estimates the recoverable amount of the asset. The recoverable amount is the greater of the net selling price and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value based on an appropriate discount factor. If such recoverable amount of the asset or the recoverable amount of the cash generating unit to which the asset belongs is less than its carrying amount, the carrying amount is reduced to its recoverable amount. The reduction is treated as an impairment loss and is recognized in the Statement of Profit and Loss. If at the balance sheet date there is an indication that a previously assessed impairment loss no longer exists, the recoverable amount is reassessed and the asset is reflected at the recoverable amount subject to a maximum of depreciable historical cost.

e. Valuation of stock

i) In determining cost of raw materials, packing materials, traded items, semi-finished goods, finished goods, stores, spares and consumables, weighted average cost method is used. Cost of inventory comprises all costs of purchase, duties, taxes (other than those subsequently recoverable from tax authorities) and all other costs incurred in bringing the inventory to their present location and condition. Damaged, unserviceable and inert stocks are suitably written down.

ii) Traded goods and finished goods are valued at cost or net realizable value whichever is lower. Cost of finished goods and semi-finished goods includes the cost of raw materials, packing materials, an appropriate share of fixed and variable production overheads, excise duty as applicable and other costs incurred in bringing the inventories to their present location.

f. Employee benefits

i) Short Term Employee Benefits

All employee benefits payable wholly within twelve months of rendering the service are classified as short-term employee benefits and they are recognised in the period in which the employee renders the related service. The Company recognises the undiscounted amount of short-term employee benefits expected to be paid in exchange for services rendered as a liability (accrued expense) after deducting any amount already paid.

ii) Post-employment benefits

(a) Defined contribution plans

Defined contribution plans are Employee Provident Fund scheme and Employee State Insurance scheme for eligible employees. The Company's contribution to defined contribution plans is recognised in the Statement of Profit and Loss in the financial year to which they relate.

(b) Defined benefit plans

(i) Compensated absences

Accumulated leave, which is expected to be utilized within the next 12 months, is treated as short-term employee benefit. The Company measures the expected cost of such absences as the additional amount that it expects to pay as a result of the unused entitlement that has accumulated at the reporting date.

The Company treats accumulated leave expected to be carried forward beyond twelve months, as long-term employee benefit for measurement purposes. Such long-term compensated absences are provided for based on the actuarial valuation using the projected unit credit method at the year-end. Actuarial gains/losses are immediately taken to the Statement of Profit and Loss and are not deferred.

(ii) Gratuity scheme

The Company operates defined benefit plan for its employees, viz., gratuity. The costs of providing benefit under these plans are determined on the basis of actuarial valuation at each year-end.

Separate actuarial valuation is carried out for each plan using the projected unit credit method. Actuarial gains and losses for both defined benefit plans are recognized in full in the period in which they occur in the Statement of Profit and Loss.

g. Foreign Currency transactions

Transactions in foreign currencies are recorded at the exchange rate prevailing on the date of transaction. Exchange differences arising on foreign exchange transaction settled during the year are recognized in Statement of Profit and Loss of the year.

Monetary assets and liabilities denominated in foreign currencies which are outstanding as at the year-end are translated at the closing exchange rate and the resultant exchange differences are recognized in the Statement of Profit and Loss.

Forward contracts, other than those entered to hedge foreign currency risk on unexecuted firm commitments or highly probable forecast transactions, are treated as foreign currency transactions and accounted accordingly as per Accounting Standard 11 ["the effect of changes in foreign exchange rates"]. Exchange differences arising on such contracts are recognized in the period in which they arise.

The premium / discount on a foreign currency forward contract is accounted as expense / income over the period of the contract.

Gains and losses arising on account of roll over / cancellation of forward contracts are recognized as income / expenses of the period in which such rollover / cancellation takes place.

The Company has adopted Accounting Standard 30, Financial Instruments; Recognition and Measurement (AS 30) issued by ICAI to the extent the adoption of AS 30 does not conflict with existing Accounting Standards prescribed by Companies (Accounting Standards) Rules, 2006 and other authoritative pronouncements.

Accordingly, the resultant gains or losses or fair valuation / settlement of the derivative contracts covered under Accounting Standard (AS) 30 ["Financial Instruments; Recognition and Measurement"] are recognized in the Statement of Profit and Loss or balance sheet as the case may be after applying the test of hedge effectiveness. Where the hedge is effective, the gains or losses are recognized in the "Hedging Reserve" which forms part of "Reserves and Surplus" in the Balance Sheet, while the same is recognized in the Statement of Profit and Loss where the hedge is ineffective. The amount recognized in the "Hedging Reserve" is transferred to the Statement of Profit and Loss in the period in which the underlying Hedge item affects the Statement of Profit and Loss.

h. Revenue recognition

Revenue from sale of goods is recognized on transfer of all significant risk and rewards of ownership to the buyer on dispatch of goods and is net of sales return, taxes and excise duty.

Scrap sales are accounted upon sales.

Dividend income is recognized when the right to receive payment is established.

Interest, export benefits and other income are recognized on accrual basis.

i. Research and development

Research and Development costs (other than the cost of fixed assets acquired) are charged as expenses in the year in which these are incurred.

j. Provisions and contingencies

The Company creates a provision when there exist a present obligation as a result of past events and that probably requires an outflow of resources and a reliable estimate can be made of the amount of the obligation. A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not require an outflow of resources. When there is a possible obligation or present obligation in respect of which likelihood of outflow of resources is remote, no provision or disclosure is made.

k. Investments

Investments which are readily realizable and intended to be held for not more than one year from the date on which such investments are made, are classified as current investments. All other investments are classified as non-current investments.

On initial recognition, all investments are measured at cost. The cost comprises purchase price and directly attributable acquisition charges such as brokerage, fees and duties.

Current investments are carried in the financial statements at lower of cost and fair value determined on an individual investment basis. Long-term investments are carried at cost. However, provision for diminution in value is made to recognize a decline other than temporary in the value of the investments.

On disposal of an investment, the difference between its carrying amount and net disposal proceeds is charged or credited to the Statement of Profit and Loss.

l. Lease accounting

i) Where the Company is lessee

Leases, which effectively transfer to the Company substantially all the risks and benefits incidental to ownership of the leased item, are capitalized at the inception of the lease term at the lower of the fair value of the leased property and present value of minimum lease payments. Lease payments are apportioned between the finance charges and reduction of the lease liability so as to achieve a constant rate of interest on the remaining balance of the liability. Finance charges are recognized as finance costs in the Statement of Profit and Loss. Lease management fees, legal charges and other initial direct costs of lease are capitalized.

A leased asset is depreciated on a straight-line basis over the useful life of the asset or the useful life envisaged in Schedule II to the Companies Act, 2013, whichever is lower. However, if there is no reasonable certainty that the Company will obtain the ownership by the end of the lease term, the capitalized asset is depreciated on a straight-line basis over the shorter of the estimated useful life of the asset, the lease term or the useful life envisaged in Schedule II to the Companies Act, 2013.

Where the lessor effectively retains substantially all the risks and benefits of ownership of the leased item, such leases are classified as operating leases. Operating lease payments are recognized as an expense in the Statement of Profit and Loss on a straight-line basis over the lease term.

ii) Where the Company is the lessor

Leases in which the Company does not transfer substantially all the risks and benefits of ownership of the asset are classified as operating leases. Assets subject to operating leases are included in fixed assets. Lease income on an operating lease is recognized in the Statement of Profit and Loss on a straight-line basis over the lease term. Costs, including depreciation, are recognized as an expense in the Statement of Profit and Loss. Initial direct costs such as legal costs, brokerage costs, etc. are recognized immediately in the Statement of Profit and Loss.

m. Borrowing costs

Borrowing cost includes interest, amortization of ancillary costs incurred in connection with the arrangement of borrowings and exchange differences arising from foreign currency borrowings to the extent they are regarded as an adjustment to the interest cost.

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the respective asset. All other borrowing costs are expensed in the period they occur.

n. Government grants and subsidies

Grants and subsidies from the government are recognized when there is reasonable assurance that (i) the Company will comply with the conditions attached to them, and (ii) the grant/subsidy will be received.

When the grant or subsidy relates to revenue, it is recognized as income on a systematic basis in the Statement of Profit and Loss over the periods necessary to match them with the related costs, which they are intended to compensate. Where the grant relates to an asset, it is recognized as deferred income and released to income in equal amounts over the expected useful life of the related asset.

o. Taxation

Tax expense comprises of current tax (i.e. amount of tax for the period determined in accordance with the Income tax Act, 1961) and deferred tax charge or credit (reflecting the tax effects of the timing differences between accounting income and taxable income for the period)

The deferred tax charge or credit and the corresponding deferred tax liabilities or assets are recognized using the tax rates and tax loss that have been enacted or substantively enacted by the balance sheet date.

Deferred tax assets are recognized only to that extent there is reasonable certainty that the assets can be realized in future; however, where there is unabsorbed depreciation or carry forward loss under taxation laws, deferred tax assets are recognized only if there is virtual certainty of realization of such assets. Deferred tax assets are reviewed as at each balance sheet date to reassess realization.

P. Contingent liabilities

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Company or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably. The Company does not recognize a contingent liability but discloses its existence in the financial statements.

Q. Earnings per share

Basic earnings per share is calculated by dividing the net profit for the period attributable to equity share holders by the weighted average number of equity shares outstanding during the period.

The weighted average number of equity shares outstanding during the period and for all periods presented is adjusted for events, such as bonus shares, other than conversion and potential equity shares that have changed the number of equity shares outstanding, without a corresponding change in resources. For the purpose of calculating diluted earnings per share, the net profit for the period attributable to equity share holders and the weighted average number of shares outstanding during the period is adjusted for the effects of all dilutive potential equity shares.

iii) **Leasehold land**

Cost of leasehold land is amortized over the balance period of the lease.

iv) **Impairment of Assets**

The Company assesses at each balance sheet date whether there is any indication that an asset may be impaired. If any such indication exists, the Company estimates the recoverable amount of the asset. The recoverable amount is the greater of the net selling price and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value based on an appropriate discount factor. If such recoverable amount of the asset or the recoverable amount of the cash generating unit to which the asset belongs is less than its carrying amount, the carrying amount is reduced to its recoverable amount. The reduction is treated as an impairment loss and is recognized in the Statement of Profit and Loss. If at the balance sheet date there is an indication that a previously assessed impairment loss no longer exists, the recoverable amount is reassessed and the asset is reflected at the recoverable amount subject to a maximum of depreciable historical cost.

e. Valuation of stock

i) In determining cost of raw materials, packing materials, traded items, semi-finished goods, finished goods, stores, spares and consumables, weighted average cost method is used. Cost of inventory comprises all costs of purchase, duties, taxes (other than those subsequently recoverable from tax authorities) and all other costs incurred in bringing the inventory to their present location and condition. Damaged, unserviceable and inert stocks are suitably written down.

ii) Traded goods and finished goods are valued at cost or net realizable value whichever is lower. Cost of finished goods and semi-finished goods includes the cost of raw materials, packing materials, an appropriate share of fixed and variable production overheads, excise duty as applicable and other costs incurred in bringing the inventories to their present location

f. Employee benefits

i) **Short Term Employee Benefits**

All employee benefits payable wholly within twelve months of rendering the service are classified as short-term employee benefits and they are recognised in the period in which the employee renders the related service. The Company recognises the undiscounted amount of short-term employee benefits expected to be paid in exchange for services rendered as a liability (accrued expense) after deducting any amount already paid.

ii) **Post-employment benefits**

(a) **Defined contribution plans**

Defined contribution plans are Employee Provident Fund scheme and Employee State Insurance scheme for eligible employees. The Company's contribution to defined contribution plans is recognised in the statement of profit and loss in the financial year to which they relate.

(b) **Defined benefit plans**

(i) **Compensated absences**

Accumulated leave, which is expected to be utilized within the next 12 months, is treated as short-term employee benefit. The company measures the expected cost of such absences as the additional amount that it expects to pay as a result of the unused entitlement that has accumulated at the reporting date.

The Company treats accumulated leave expected to be carried forward beyond twelve months, as long-term employee benefit for measurement purposes. Such long-term compensated absences are provided for based on the actuarial valuation using the projected unit credit method at the year-end. Actuarial gains/losses are immediately taken to the Statement of Profit and Loss and are not deferred.

(ii) **Gratuity scheme**

The company operates defined benefit plan for its employees, viz., gratuity. The costs of providing benefit under these plans are determined on the basis of actuarial valuation at each year-end. Separate actuarial valuation is carried out for each plan using the projected unit credit method. Actuarial gains and losses for both defined benefit plans are recognized in full in the period in which they occur in the Statement of Profit and Loss.

g. Foreign Currency transactions / translations

Transactions in foreign currencies are recorded at the exchange rate prevailing on the date of transaction. Exchange differences arising on foreign exchange transaction settled during the year are recognized in Statement of Profit and Loss of the year.

Monetary assets and liabilities denominated in foreign currencies which are outstanding as at the year-end are translated at the closing exchange rate and the resultant exchange differences are recognized in the Statement of Profit and Loss.

In translation, the financial statements of foreign entities for incorporation in the consolidated financial statements, the assets and liabilities are translated at the exchange rate prevailing at the Balance Sheet date of respective subsidiaries and the Income and Expenses item are translated at the average rate of exchange for the year. The resulting exchange differences are classified as 'Foreign Currency Translation Reserve'.

Forward contracts, other than those entered to hedge foreign currency risk on unexecuted firm commitments or highly probable forecast transactions, are treated as foreign currency transactions and accounted accordingly as per Accounting Standard 11 ["Effect of Changes in Foreign Exchange Rates"]. Exchange differences arising on such contracts are recognized in the period in which they arise.

The premium / discount on a foreign currency forward contract is accounted as expense / income over the period of the contract.

Gains and losses arising on account of roll over / cancellation of forward contracts are recognized as income / expenses of the period in which such rollover / cancellation takes place.

The Company has adopted Accounting Standard 30, Financial Instruments; Recognition and Measurement (AS 30) issued by ICAI to the extent the adoption of AS 30 does not conflict with existing Accounting Standards prescribed by Companies (Accounting Standards) Rules, 2006 and other authoritative pronouncements.

Accordingly, the resultant gains or losses or fair valuation / settlement of the derivative contracts covered under Accounting Standard (AS) 30 ["Financial instruments; Recognition and Measurement"] are recognized in the Statement of Profit and Loss or Balance Sheet as the case may be after applying the test of hedge effectiveness. Where the hedge is effective, the gains or losses are recognized in the "Hedging Reserve" which forms part of "Reserves and Surplus" in the Balance Sheet, while the same is recognized in the Statement of Profit and Loss where the hedge is ineffective. The amount recognized in the "Hedging Reserve" is transferred to the Statement of Profit and Loss in the period in which the underlying Hedge item affects the Statement of Profit and Loss.

h. Revenue recognition

Revenue from sale of goods is recognized on transfer of all significant risk and rewards of ownership to the buyer on dispatch of goods and is net of sales return, taxes and excise duty.

j. Provisions and contingencies

The Company creates a provision when there exist a present obligation as a result of past events and that probably requires an outflow of resources and a reliable estimate can be made of the amount of the obligation. A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not require an outflow of resources. When there is a possible obligation or present obligation in respect of which likelihood of outflow of resources is remote, no provision or disclosure is made.

k. Investments

Investments which are readily realizable and intended to be held for not more than one year from the date on which such investments are made, are classified as current investments. All other investments are classified as non-current investments.

On initial recognition, all investments are measured at cost. The cost comprises purchase price and directly attributable acquisition charges such as brokerage, fees and duties.

Current investments are carried in the financial statements at lower of cost and fair value determined on an individual investment basis. Long-term investments are carried at cost. However, provision for diminution in value is made to recognize a decline other than temporary in the value of the investments.

On disposal of an investment, the difference between its carrying amount and net disposal proceeds is charged or credited to the Statement of Profit and Loss.

I. Lease accounting

i) Where the Company is lessee:

Leases, which effectively transfer to the Company substantially all the risks and benefits incidental to ownership of the leased item, are capitalized at the inception of the lease term at the lower of the fair value of the leased property and present value of minimum lease payments. Lease payments are apportioned between the finance charges and reduction of the lease liability so as to achieve a constant rate of interest on the remaining balance of the liability. Finance charges are recognized as finance costs in the Statement of Profit and Loss. Lease management fees, legal charges and other initial direct costs of lease are capitalized.

A leased asset is depreciated on a straight-line basis over the useful life of the asset or the useful life envisaged in Schedule II to the Companies Act, 2013, whichever is lower. However, if there is no reasonable certainty that the Company will obtain the ownership by the end of the lease term, the capitalized asset is depreciated on a straight-line basis over the shorter of the estimated useful life of the asset, the lease term or the useful life envisaged in Schedule II to the Companies Act, 2013.

Where the lessor effectively retains substantially all the risks and benefits of ownership of the leased item, such leases are classified as operating leases. Operating lease payments are recognized as an expense in the Statement of Profit and Loss on a straight-line basis over the lease term.

ii) Where the Company is the lessor

Leases in which the Company does not transfer substantially all the risks and benefits of ownership of the asset are classified as operating leases. Assets subject to operating leases are included in fixed assets. Lease income on an operating lease is recognized in the Statement of Profit and Loss on a straight-line basis over the lease term. Costs, including depreciation, are recognized as an expense in the Statement of Profit and Loss. Initial direct costs such as legal costs, brokerage costs, etc. are recognized immediately in the Statement of Profit and Loss.

m. Borrowing costs

Borrowing cost includes interest, amortization of ancillary costs incurred in connection with the arrangement of borrowings and exchange differences arising from foreign currency borrowings to the extent they are regarded as an adjustment to the interest cost.

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the respective asset. All other borrowing costs are expensed in the period they occur.

n. Government grants and subsidies

Grants and subsidies from the government are recognized when there is reasonable assurance that (i) the Company will comply with the conditions attached to them, and (ii) the grant/subsidy will be received.

When the grant or subsidy relates to revenue, it is recognized as income on a systematic basis in the Statement of Profit and Loss over the periods necessary to match them with the related costs, which they are intended to compensate. Where the grant relates to an asset, it is recognized as deferred income and released to income in equal amounts over the expected useful life of the related asset.

o. Taxation

Tax expense comprises of current tax (i.e. amount of tax for the period determined in accordance with the Income tax Act, 1961) and deferred tax charge or credit (reflecting the tax effects of the timing differences between accounting income and taxable income for the period).

The deferred tax charge or credit and the corresponding deferred tax liabilities or assets are recognized using the tax rates and tax loss that have been enacted or substantively enacted by the balance sheet date.

Deferred tax assets are recognized only to that extent there is reasonable certainty that the assets can be realized in future; however, where there is unabsorbed depreciation or carry forward loss under taxation laws, deferred tax assets are recognized only if there is virtual certainty of realization of such assets. Deferred tax assets are reviewed as at each balance sheet date to reassess realization.

P. Contingent liabilities

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Company or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably. The Company does not recognize a contingent liability but discloses its existence in the financial statements.

q. Earnings Per Share

Basic earnings per share is calculated by dividing the net profit for the period attributable to equity share holders by the weighted average number of equity shares outstanding during the period.

The weighted average number of equity shares outstanding during the period and for all periods presented is adjusted for events, such as bonus shares, other than conversion and potential equity shares that have changed the number of equity shares outstanding, without a corresponding change in resources. For the purpose of calculating diluted earnings per share, the net profit for the period attributable to equity share holders and the weighted average number of shares outstanding during the period is adjusted for the effects of all dilutive potential equity shares.

Hence there are no separate reportable segments, as required by the Accounting Standard 17 on "Segment Reporting" notified under the Companies (Accounting Standards) Rules, 2006 which continue to apply under Section 133 of The Companies Act, 2013, read with Rule 7 of the Companies (Accounts) Rules, 2014 issued by the Ministry of Corporate Affairs.
21. The Company held majority share holding in Power Brands (Foods) Private Limited ('PBFPL'). It presently holds 2,08,85,992 fully paid Equity Shares of ₹ 10/- each (including 20,75,992 Equity Shares acquired at ₹ 330.08 lacs in Financial Year 2012-13). PBFPL is presently under voluntary liquidation process.
- Pursuant to a special resolution passed on November 5, 2012 by its members, PBFPL went into the members' voluntary liquidation. In the course of liquidation process, the voluntary liquidator, with the prior approval of the members vide their special resolution dated March 8, 2013, distributed PBFPL's intangible asset - Ashoka brand and part of cash and bank balance to its Shareholders in proportion to their respective shareholding in PBFPL while retaining certain other fixed and current assets to meet its contingent and other liabilities.
- By virtue of the above distribution, the Company received Ashoka brand in the Financial Year 2012-13 (valued at ₹ 2,935.99 lacs by an independent valuer) in lieu of it's investment in PBFPL's equity shares of ₹ 2,211.08 lacs. Accordingly, the Company capitalised the said brand in it's books at ₹ 2,935.99 lacs in the said financial year after adjusting the same against the investment value of ₹ 2,211.08 lacs and carried the balance of ₹ 724.91 lacs to the credit of the Statement of Profit and Loss as an exceptional item in that year.
- During the current Financial Year, the voluntary liquidator, with the prior approval of the members vide their special resolution dated 10th November 2014, distributed PBFPL's immovable property situated at Sewree, Mumbai and part of cash and bank balance to its Shareholders in proportion to their respective shareholding in PBFPL while retaining certain other current assets to meet with it's contingent and other liabilities. The excess value of assets so received over the investment value in Equity Shares of PBFPL has been accounted for in the Company's Statement of Profit & Loss under the head exceptional item.
- Consequently, the investment in Equity Shares of PBFPL stands fully realised. However, pending completion of liquidation process, the Company has not surrendered the said shares to the Voluntary liquidator and they have been shown under the head "Investment" at nil value.
22. The Corresponding figures and details pertaining to the Previous Year have been traced from the Financial statements for the year ended March 31, 2014 audited solely by one of the current joint auditors vide their report dated May 28, 2014.
23. Previous Year's figures have been regrouped / restated wherever necessary to conform to current year's classification.
24. Figures have been rounded off to the nearest lacs.
